Journal Citation Reports (JCR) 소개

Journal Citation Reports(JCR)이란?

JCR은 저널의 성과를 비교/분석할 수 있는 데이터베이스로 Web of Science의 핵심 컬렉션의 인용데이터를 기반으로 하고 있음

- Journal Impact Factor(JIF)를 포함한 저널의 고유의 평가지수를 활용하여 저널 분석
- 매년 새로운 버전의 JCR을 발표
- JCR에 포함된 색인
 - SCIE (Science Citation Index Expanded)
 - SSCI (Social Sciences Citation Index)
 - AHCI (Arts & Humanities Citation Index)
 - ESCI (Emerging Source Citation Index)

New JCR 활용하기

JCR 등록하기

The screenshot shows the JCR website homepage. At the top left, the text "Journal Citation Reports" is followed by a link "Browse journals". At the top right, there are "Sign In" and "Register" buttons. A line connects the "Register" button to a callout box titled "Email로 JCR 등록". This box contains a bullet point stating that Clarivate's products can be logged in with a single ID, such as Web of Science, EndNote, Publons, or InCites. Below the navigation bar is a large purple banner with the text "The world's leading journals and publisher-neutral data". Underneath the banner is a search bar with the placeholder text "Type journal name, ISSN, eISSN, category or a keyword" and a magnifying glass icon. At the bottom, there is a white box titled "Already have a manuscript?" which includes a brief description of the Manuscript matcher and a "Match my manuscript" button. The Clarivate logo is located at the bottom left of the slide.

Match my manuscript > Master Journal List

The screenshot shows the 'Master Journal List' page on the Web of Science platform. The page has a dark blue header with the Web of Science Group logo and navigation links: Master Journal List, Search Journals, Match Manuscript, Downloads, and Help Center. A user greeting 'Welcome, Donghyun Kim' and links for Settings and Log Out are on the right. The main content area has a dark blue background with white text: 'Browse, search, and explore journals indexed in the Web of Science'. Below this, a paragraph describes the Master Journal List as an invaluable tool for finding journals across multiple indices. A search bar with the placeholder 'Search Journal, ISSN or title word...' and a blue 'Search Journals' button are present. Below the search bar, there is a section titled 'Already have a manuscript?' with a document icon and a description of the Manuscript Matcher tool. A blue 'Match Manuscript' button is next to this section. At the bottom, there is a 'Related products' section. On the right side of the screenshot, there are two purple callout boxes with Korean text. The first box says '작성된 Manuscript의 제목과 초록을 활용하여 투고할 저널 매칭' (Matching journals for submission using the title and abstract of the submitted manuscript). The second box says '저널검색' (Journal search). Below the 'Match Manuscript' button, there is a 'Manuscript Matcher' modal window. It contains a description of the tool, a prompt to enter manuscript information, and two text input fields: 'Title' and 'Abstract'. Below these fields are 'Cancel' and 'Find Journals' buttons. A third purple callout box on the right side of the modal says '논문명과 Abstract를 입력해 투고할 저널을 추천 받을 수 있음' (You can receive journal recommendations by inputting the paper title and Abstract).

Browse, search, and explore journals indexed in the Web of Science

The Master Journal List is an invaluable tool to help you to find the right journal for your needs across multiple indices hosted on the Web of Science platform. Spanning all disciplines and regions, Web of Science Core Collection is at the heart of the Web of Science platform. Curated with care by an expert team of in-house editors, Web of Science Core Collection includes only journals that demonstrate high levels of editorial rigor and best practice. As well as the Web of Science Core Collection, you can search across the following specialty collections: Biological Abstracts, BIOSIS Previews, Zoological Record, and Current Contents Connect, as well as the Chemical Information products.

Journal profile – Journal Performance (JIF)

Journal Impact Factor ^Q

The Journal Impact Factor (JIF) is a journal-level metric calculated from data indexed in the Web of Science Core Collection. It should be used to evaluate journal performance, not individual researchers. Citation rates, such as the volume of publication and citations characteristics of the subject area and type of journal. The Journal impact factor can complement expert opinion and informed peer review. In the case of academic evaluation for tenure, it is inappropriate to use a journal-level metric as a proxy measure for individual researchers, institutions, or articles. [Learn more](#)

Journal profile – JCI & Total Citation

Journal Citation Indicator (JCI) [Export](#)

26.14

The Journal Citation Indicator (JCI) is the average Category Normalized Citation Impact (CNCI) of citable items (articles & reviews) published by a journal over a recent three year period. The average JCI in a category is 1. Journals with a JCI of 1.5 have 50% more citation impact than the average in that category. It may be used alongside other metrics to help you evaluate journals. [Learn more](#)

최근 5년 JCI 트렌드

Total Citations [Export](#)

464,376

The total number of times that a journal has been cited by all journals included in the database in the JCR year. Citations to journals listed in JCR are compiled annually from the JCR years combined database, regardless of which JCR edition lists the journal.

최근 5년 총 피인용 수 트렌드

Journal profile – Citation distribution

Citation distribution

Export

The Citation Distribution shows the frequency with which items published in the year or two years prior were cited in the JCR data year (i.e., the component of the calculation of the JIF). The graph has similar functionality as the JIF Trend graph, including hover-over data descriptions for each data point, and an interactive legend where each data element's legend can be used as a toggle. You can view Articles, Reviews, or Non-Citable (other) items to the JIF numerator.

Journal profile – Open Access (OA)

Open Access (OA) ^①

Export

The data included in this tile summarizes the items published in the journal in the JCR data year and in the previous two years. For example, in the 2020 JCR data, released in June 2021, the Open Access (OA) data show the publication model (Gold OA or subscription) of materials published in 2018, 2019 and 2020, and citations in 2020 to these items. This three-year set of published items is used to provide descriptive analysis of the content and community of the journal. [Learn more](#)

Journal profile – Rank by JIF & JCI

Rank by Journal Impact Factor

Journals within a category are sorted in descending order by Journal Impact Factor (JIF) resulting in the Category Ranking below. A separate rank is presented at the top of the list, with other years shown in reverse chronological order. [Learn more](#)

Journal profile – Additional metrics

Additional metrics

Eigenfactor Score 0.63202

The Eigenfactor Score is a reflection of the density of the network of citations around the journal using 5 years of cited content as cited by the Current Year. It considers both the number of citations and the source of those citations, so that highly cited sources will influence the network more than less cited sources. The Eigenfactor calculation does not include journal self citations. [Learn more](#)

Normalized Eigenfactor 132.47856

The Normalized Eigenfactor Score is the Eigenfactor score normalized, by rescaling the total number of journals in the JCR each year, so that the average journal has a score of 1. Journals can then be compared and influence measured by their score relative to 1. [Learn more](#)

Article influence score 37.313

The Article Influence Score normalizes the Eigenfactor Score according to the cumulative size of the cited journal across the prior five years. The mean Article Influence Score for each article is 1.00. A score greater than 1.00 indicates that each article in the journal has above average influence. [Learn more](#)

5 Year Impact Factor 89.676

[View Calculation](#)

The 5 year Impact Factor is the average number of times articles from the journal published in the past five years have been cited in the JCR year. It is calculated by dividing the number of citations in the JCR year by the total number of articles published in the five previous years.

Immediacy Index 162.030

[View Calculation](#)

The Immediacy Index is the count of citations in the current year to the journal that reference content in this same year. Journals that have a consistently high Immediacy Index attract citations rapidly. [Learn more](#)

JCR 주요 Indicator

2020 Journal Impact Factor

2018년과 2019년도에 출판된 논문이 2020년도에 인용된 평균값

Journal Impact Factor Calculation

$$\text{2020 Journal Impact Factor} = \frac{90,281}{1,807} = 49.962$$

How is Journal Impact Factor Calculated?

$$\text{JIF} = \frac{\text{Citations in 2020 to items published in 2018 (49,095) + 2019 (41,186)}{90,281}}{\text{Number of citable items in 2018 (904) + 2019 (903)}{1,807}} = \frac{90,281}{1,807}$$

❖ SCIE (Science Citation Index Expanded)와 SSCI (Social Sciences Citation Index)에 색인된 저널에만 부여

JCR의 주요 저널 평가 지표

- Eigenfactor Score: 피인용 저널의 영향력에 따라 가중치를 부여한 영향력 평가 지수
- Normalized Eigenfactor: Eigenfactor Score의 값을 Normalization한 값 (전체 평균값 1을 기준)
- Immediacy Index: 논문이 출판된 해에 인용된 평균값으로 저널이 얼마나 빠르게 인용되고 있는지를 나타내는 지수
- Quartile: Journal Impact Factor를 기준으로 Category별 사분위 값

- Percentile: Journal Impact Factor를 기준으로 Category별 백분위 값

New Indicator – Journal Citation Indicator (JCI)

- ❑ 저널의 평균 인용수 (Citation Impact)를 Category, 출판연도, 문서형태에 따라 Normalization한 지표값
- ❑ JCR의 모든 저널 색인의 저널에 부여됨
- ❑ 2개 이상의 Category에 색인된 저널의 경우 평균값으로 1개의 JCI값이 부여됨
- ❑ 2017, 2018, 2019년도에 출판된 article과 review 형태의 논문이 2017, 2018, 2019, 2020년도에 인용된 값으로 산출됨

New JCR 첫화면

New JCR Browse Journals

1 Welcome to the new JCR

Welcome to the new Journal Citation Reports

We are excited to show you what is new in this year's Journal Citation Reports. You'll find:

- **More journals** - we've expanded content to include Arts & Humanities and Emerging Sources Citation Index journals
- **Journal Citation Indicator** - a new field-normalized metric for journals across all disciplines
- **Enhanced user experience** - interactive visualizations, simpler navigation and contextual help make the JCR easier to use than ever.

Let us show you around!

NO THANKS

GET STARTED

Browse journals

STEP 4 OF 7

More journal coverage

Browse journals across all editions of Web of Science Core Collection, including:

- Science Citation Index Expanded
- Social Science Citation Index
- Arts & Humanities Citation Index
- and Emerging Sources Citation Index

BACK

NEXT

STEP 2 OF 7

Expanded search

Search journal names, categories, keywords, or ISSNs to begin your search.

NEXT

STEP 3 OF 7

Decide where to publish

Use your existing manuscript combined with Clarivate's world-class data in **Manuscript Match** to find the right fit for you. Create a free account if you don't already have one.

Help Guide

The screenshot shows the Clarivate Journal Citation Reports website. The main header includes the Clarivate logo, 'Products', and navigation links for 'Journal Citation Reports', 'Browse journals', and 'Browse categories'. A search bar is present with the placeholder text 'Journal name, JCR abbreviation, ISSN, eISSN or category'. Below the header, there's a large purple banner with the text 'The world's leading journals and publisher-neutral data'. A search bar is also located within this banner. Below the banner, there's a section titled 'Already have a manuscript?' with a 'Match my manuscript' button. Further down, there's a section titled 'See full listings and refine your search' with four icons: 'Browse journals', 'Browse categories', 'Browse publishers', and 'Browse countries'. A 'Resources & updates' modal is open, showing options like 'Product updates', 'Guided tours', 'Help & contact us', and 'Provide feedback'. A red box highlights the 'Help & contact us' option, with a red circle and the number '2' next to it. A red box with a question mark icon and the number '1' is also present. A red box with the number '3' highlights the 'Help guide' option in the 'Help & contact us' modal. A blue arrow points from the 'Help & contact us' option in the 'Resources & updates' modal to the 'Help guide' option in the 'Help & contact us' modal. A text box with the Korean text 'Help guide로 이동' (Move to Help guide) is also present. The text '물음표를 클릭' (Click the question mark) is written below the question mark icon.

About Journal Citation Reports

Journal Citation Reports aggregates the meaningful connections of citations created by the research community through the delivery of a rich array of publisher-independent data, metrics and analysis of the world's most impactful journals included in the Science Citation Index Expanded (SCIE), Social Sciences Citation Index (SSCI), Arts & Humanities Citation Index (AHCI), and the Emerging Sources Citation Index (ESCI).

Journal Citation Reports is the only journal report of its kind that is both complete and editorially selective; it contains all the data required to understand the components that index the value and impact of each journal. The structured data are curated by a global team of experts who continuously evaluate and select the collections of journals, books and conference proceedings covered in the Web of Science Core Collection to ensure accuracy in evaluating journal impact.

These expert insights enable you to explore the key drivers of a journal's value, making better use of the wide body of data and metrics available in the Journal Citation Reports, including the Journal Impact Factor (JIF)™ and the Journal Citation Indicator (JCI)

For more information about the current release of Journal Citation Reports, visit our [What's New](#) and [Database Updates](#) pages.

Help Guide – Where to go

 Journal Citation Reports Help	목차	내용
What's New	What's New?	날짜별로 JCR의 업데이트 내용 확인 하는 창
Getting Started	Getting Started	등록, 로그인, 트레이닝 등 기본적인 사용법에 대한 창
Scope Notes	Scope Notes	Master Journal List로 연결이 되어서 SCIE, SSCI, AHCI 및 ESCI의 Scope Notes를 확인 가능
How to Cite Journal Citation Reports	How to Cite Journal Citation Report	JCR을 다른 인용해갈 경우 올바른 사용방법과 Reference list example를 확인 가능
Downloading Information	Downloading Information	JCR 안에서의 'Export' 또는 'Download'기능에 대한 설명
Editorial Information	Editorial Information	논문 정보상에서의 변화 (저널명 변경, 다중 저널명) 등을 볼 수 있는 창
JCR Editorial Expression of Concern	JCR Editorial Expression of Concern	우려되는 인용 패턴이 발견된 저널 리스트
Title Suppressions	Title suppression	우려되는 인용 패턴이 발견돼 JIF 부여를 보류한 저널 리스트 - self: 자기 인용이 너무 많은 경우 / stacking 특정 저널의 인용이 너무 많은 경우
Browse Journals	Browse Journals	Browse Journals에 대한 기능과 Filter, indicator에 대한 설명
Journal Profile	Journal Profile	Journal Profile에 대한 자세한 설명과 Journal Profile내의 각 파트에 대한 설명
Classic JCR	Classic JCR	Classic JCR의 Journal Profile, Category rank 등의 정보에 대한 설명 (22년 3월 4일부로 종료)
Glossary	Glossary	JCR을 활용에 도움을 줄 지수와 정의에 대한 도움 설명
Support	Support	JCR을 활용하며 제품에 대한 도움 혹은 접속을 위한 product support page의 링크

감사합니다.
